INTRODUCTION

This edition of the Roster of State and Local Officials follows in general the plan used in previous editions.

Included for the first time in this edition is a list of Township Assessors. Also included are the several new committees and commissions authorized by the 1943 legislature and appointed since the last edition of the Roster.

As this department must depend largely on the information obtained from local officials there is the possibility of some errors in names and addresses. We have, however, checked these lists with all available reliable sources and feel confident that the listings as printed can be relied upon for all practical purposes.

No attempt is made to arrange major departments, operating units, or territorial subdivisions on any basis of legal priority or importance. Likewise no effort is made to indicate lines of authority or responsibility. In the constitutionally established "executive including the administrative department" we have listed first the elective officers and statutory executive or administrative departments. These are followed by the non-departmental, or as sometimes designated, independent administrative divisions, bureaus, etc., listed first as to administrative personnel then membership. In subdivision three of this section is a list of the trustees and chief executive or administrative officers of the state institutions.

The federal, county, city and township listings, comprising the remainder of the roster follows along the general plan used previously.

The war will continue to cause many changes due to entry into service by public officials. This office will appreciate any changes or needed corrections which may be called to our attention.

Free copies of the Roster may be obtained by addressing the State Board of Accounts, State House, Indianapolis.

OTTO K. JENSEN,
State Examiner.
